

Ankit Kumar Singh

ankitkumarsingh040399@gmail.com | linkedin | github | leetcode | portfolio | +91 7050833515

SKILLS

Programming Languages :

- Core Java • JavaScript • Python

Test Automation Frameworks :

- Selenium WebDriver • TestNG
- JUnit • Cucumber (BDD)
- Data-Driven Framework
- Page Object Model (POM)

API Testing :

- REST Assured • RESTful APIs
- Postman • JSON/XML Validation

Testing Methodologies :

- Functional Testing • Smoke Testing
- Regression Testing • Integration Testing • Cross-Browser Testing • User Acceptance Testing • System Testing

Database and Data Management:

- MYSQL • JDBC • SQL • Apache POI
- Test Data Generation

CI/CD and DevOps :

- Jenkins • GitLab • GitHub Actions
- Git/GitHub • Continuous Testing
- Maven • Docker • Build Automation

Defect Management and Collaboration :

- JIRA • Agile/Scrum • Sprint Planning
- Defect Lifecycle Management
- Test Reporting (Allure/Extent Report)

Web Technologies :

- HTML • CSS • Node.js

AI Tools and Platforms :

- ChatGPT • Claude • GitHub Copilot
- Gemini • AI-Assisted Debugging
- AI-Assisted Test Case Generation

Soft Skills :

- Problem-Solving • Debugging
- Collaboration • Teamwork
- Adaptability • Critical Thinking

Languages :

- English • Hindi

EDUCATION

CHITKARA UNIVERSITY

BACHELORS OF ENGINEERING IN
COMPUTER SCIENCE

2024 | Baddi, Himachal Pradesh

CGPA: 9.10/10

PROFESSIONAL SUMMARY

Software Development Engineer in Test (SDET) with 1.5+ years of experience in designing scalable test automation frameworks using Java, Selenium WebDriver, and REST Assured. Skilled in building Page Object Model (POM), Data-Driven, and BDD frameworks, with expertise in CI/CD integration and leveraging modern testing practices including AI-assisted test optimization. Expert in building maintainable automation solutions that deliver high-quality software while significantly reducing manual effort across the SDLC.

EXPERIENCE

CAPGEMINI | SDET

Sep 2024 – Present | Bangalore, Karnataka

- Executed 120+ automated test cases using Selenium WebDriver within a custom Java-based automation framework, achieving 85% test coverage and reducing regression cycle time by 68%
- Engineered scalable test automation frameworks implementing Page Object Model (POM) and Data-Driven patterns with TestNG/JUnit, enabling parallel test execution with 95% test stability.
- Implemented API test automation strategy using REST Assured and Postman, validating 50+ RESTful endpoints including authentication flows, CRUD operations, and error-handling scenarios.
- Integrated test suites into CI/CD pipeline using Jenkins, Git, and Maven, establishing automated smoke and regression testing on every commit, reducing production defects by 40% through early detection.
- Collaborated in Agile/Scrum teams across 6+ sprints, contributing to sprint planning, daily stand-ups, and retrospectives; maintained 95% defect closure rate using JIRA for end-to-end bug lifecycle tracking
- Implemented BDD test scenarios using Cucumber and Optimized test data management leveraging Apache POI for dynamic data-driven testing.

PROJECTS

HEALTHCARE WEB APPLICATION

Jan 2025 – June 2025 | Tech Stack: Java, Selenium, JUnit, TestNG

- Designed and executed comprehensive test automation suite covering 40+ automated functional and regression test cases across critical healthcare workflows (appointment booking, online consultation, patient records, prescription management), achieving 95% feature coverage
- Built robust Page Object Model (POM) framework with reusable components, reducing code duplication and Performed cross-browser compatibility testing across Chrome and Edge using Selenium Grid.
- Documented TestNG native reports, Allure/Extent reports, and 10+ defects with severity/priority classification, providing real-time test execution dashboards with pass/fail metrics, screenshots, and execution trends.

CERTIFICATIONS

- Google AI Essentials Specialization (Coursera).
- Capgemini Ocean L2 Certification - Test Automation Engineer (Selenium).
- Best Practices – Framework Design and Implementation Patterns.
- Active contributor on LeetCode and GeeksforGeeks.
