EDUCATION

CHITKARA UNIVERSITY

BACHELORS OF ENGINEERING IN
COMPUTER SCIENCE
2024 | Baddi, Himachal Pradesh
CGPA: 9.10/10

D. A. V. PUBLIC SCHOOL

HIGHER SECONDARY EDUCATION
Jamshedpur, Jharkhand

R. V. S. ACADEMY

SECONDARY EDUCATION
Jamshedpur, Jharkhand

SKILLS

PROGRAMMING

Languages :

• Java • JavaScript • Python

Tools and Frameworks :

• Selenium WebDriver • TestNG
• JUnit • Cucumber (BDD)
• Test Automation Framework
• Page Object Model (POM) • Linux
• Apache POI

API Testing :

• Rest Assured • Postman • Restful API

DevOps and CI/CD :

• Jenkins • Git/GitHub • CI/CD Pipelines

Web Technologies:

• React.js • Node.js • HTML • CSS

Database and Querying :

• MySQL • JDBC • SQL

Test Engineering Skills :

• Test Case Design • Test Execution
• Defect Tracking • Bug Reporting
• Test Data Management
• Test Reports

Project Methodologies :

• Agile • Scrum • SDLC • Bug Lifecycle

Soft Skills :

• Problem-Solving • Debugging
• Critical Thinking • Teamwork
• Adaptability • Time Management

Languages :

• English • Hindi

PROFESSIONAL SUMMARY

Software Engineer with hands-on expertise in Java, Selenium WebDriver, and REST API automation in Agile/Scrum environments. Skilled in building scalable test automation frameworks, writing robust automation scripts, and executing unit, integration, regression, and cross-browser testing. Proficient in CI/CD pipelines, bug tracking, and tools like Postman, JIRA, and Apache POI. Focused on delivering high-quality software and reducing manual effort across the SDLC.

EXPERIENCE

CAPGEMINI | ASSOCIATE SOFTWARE ENGINEER

Sep 2024 – Present | Bangalore, Karnataka

- Developed test automation frameworks using Java, Selenium WebDriver, TestNG, and JUnit to execute unit, regression, and smoke tests across multiple environments.
- Automated 120+ test cases using Selenium WebDriver within a custom automation framework, improving test coverage and reducing manual test effort by 50%.
- Performed REST API testing using Postman and Rest Assured, validating API endpoints, and ensuring robust integration test coverage.
- Worked on web application testing projects and enhanced proficiency with Apache POI, Cucumber (BDD), Git/GitHub, and CI/CD pipeline integration using Jenkins.

PROJECTS

HEALTHCARE WEB APPLICATION

Nov 2024 – Dec 2024 | Tech Stack: Java, Selenium, JUnit, TestNG

- Designed and implemented automated functional and regression test suites using Selenium WebDriver and TestNG for critical healthcare modules.
- Developed and executed 40+ automated test cases, achieving 100% test coverage across workflows like doctor appointment booking, online consultation, and patient record management.
- Performed cross-browser and cross-device compatibility testing to ensure consistent UI and UX across major platforms.
- Documented test results and defects, collaborated in an Agile team environment, and contributed to test planning, test case design, and bug lifecycle management.

EMPLOYEE PAYROLL SYSTEM

June 2024 – August 2024 | Tech Stack: Java Swing (GUI), MySQL, JDBC

- Designed and developed a robust payroll management system using Java.
- Implemented a modular architecture to enhance maintainability, scalability, and ease of future enhancements.
- Integrated MySQL with JDBC to handle secure employee data transactions, including payroll calculation, tax deduction, and monthly reports.
- Conducted unit testing with JUnit, ensuring code quality, functional accuracy, and system reliability.

CERTIFICATIONS / ACHIEVEMENTS

- Capgemini Ocean L2 Certification – QA Automation
- Best practices in test case design and framework development.
