EDUCATION

CHITKARA UNIVERSITY

BACHELORS OF ENGINEERING IN
COMPUTER SCIENCE
2024 | Himachal Pradesh
CGPA: 9.1/10

D. A. V. PUBLIC SCHOOL

HIGHER SECONDARY EDUCATION
2019 | Jamshedpur, Jharkhand

R. V. S. ACADEMY

SECONDARY EDUCATION
2015 | Jamshedpur, Jharkhand

SKILLS

PROGRAMMING

Languages :

• Core Java • JavaScript

Frameworks :

• Selenium • TestNG • Junit

Familiar Tools:

• Cucumber • Apache POI • Python
• Linux • Vscode • Eclipse • Postman
• Rest Assured • SQL • Git/Github
• Restful API • Jenkins • CI/CD

Web Technologies:

• HTML • CSS • React.js • Node.js

Other Skills :

• Problem-Solving • Debugging
• Critical Thinking • Teamwork
• Adaptability • Time Management

Languages :

• English • Hindi

COURSEWORK

UNDERGRADUATE

• Object-Oriented Programming
• Data Structure and Algorithms

CERTIFICATES

Capgemini L1 Industry Certification,
Tech; Digital

Capgemini Ocean Certified L1: Test
Automation Engineer; QA Automation;
Selenium

PROFILE SUMMARY

Passionate programmer with well-developed organizational skills, honed through diverse experiences. Proficient in task prioritization and efficient deadline management, demonstrating a strong commitment to achieving goals. I maintain a robust work ethic and possess a continuous passion for learning and personal growth.

EXPERIENCE

CAPGEMINI | SOFTWARE ENGINEER

Sep 2024 – Present | Location : Bangalore, Karnataka

- Developed expertise in Java and Selenium, gaining hands-on experience in automation testing, software development, and test framework implementation.
- Engaged in multiple web development and software testing projects, enhancing practical skills in Core Java, Selenium, Testng, Junit, Cucumber, Apache POI, Tricentis Tosca, SQL, Git, and GitHub.
- Automated key test scenarios using Selenium WebDriver and TestNG, reducing manual effort and increasing test efficiency.
- Implemented REST API testing using Postman, validating API responses and improving system integrations.

PROJECTS

PRACTO WEB APPLICATION TESTING

Nov 2024 – Dec 2024 | Tech Stack: Java, Selenium, Junit, Testng

- Conducted automated functional and regression testing for the Practo web application using Selenium WebDriver.
- Evaluated key functionalities, including doctor appointment booking, online consultations, and health record management, ensuring seamless user experience.
- Performed cross-browser and cross-device testing to validate UI consistency and performance.
- Developed and automated critical test scenarios, improving efficiency and accuracy in testing cycles.

EMPLOYEE PAYROLL SYSTEM

June 2024 – August 2024 | Tech Stack: Java Swing (GUI), MySQL, JDBC

- Designed and developed a robust payroll management system using Java.
- Implemented a modular architecture to enhance maintainability, scalability, and ease of future enhancements.
- Integrated MySQL database for secure and efficient employee data storage, retrieval, and management.
- Conducted unit testing with JUnit, ensuring code quality, functional accuracy, and system reliability.

X-O WAR : TIC TAC TOE

May 2024 | Tech Stack: Data Structures and Algorithms

- Utilized two-dimensional arrays to represent the 3x3 game board.
- Implemented algorithms to check for winning conditions after each move, ensuring timely and accurate determination of the game outcome.
